Full Stack Developer   A software project description should start with an overview that explains the type of software that will be developed, the problem it will solve, and the benefits to users and the business. The overview shouldn't focus on the technical aspects of the project, but instead on the final product and its benefits.

EXPERIENCE

Microsoft	**Full Stack Developer**
Noida, Uttar Pradesh, India	Sep 2020 - July 2024

My role was to conduct the sales process according to the organization's strategies and procedures. This implied advertising the properties that were up for sale, presenting them to potential customers and finalizing the sales process. Reached 96% of quarterly sales targets throughout my employment with constant promotion and professional property presentations Trained a total of 36 junior sales representatives, with 21 of them still currently employed by the organization Boosted sales by 9% by editing and revising work procedures with management

EDUCATION

MIET	**B. Tech in Computer Science**
Meerut, Uttar Pradesh	
Sep 2020 - July 2024	

CVPS	**Intermediate**
Meerut, Uttar Pradesh	
Apr 2019 - Jun 2020
